***Reason For Allowance***

Claims 1-20, 22-33, 36 and 40-59 (renumbered 1-53) are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art taken alone or in combination fails to teach the claimed invention of editing a software program in a common language runtime environment by executing a first portion of the native code, suspending execution, allowing user to edit the source code and advantageously allows a software developer to interactively execute portions of code, make revision or changes and continue execution without having to restart the program execution from the beginning after each edit. Therefore, the invention improves the editing and debugging process by avoiding line-by-line editing and debugging and provides advance-editing capabilities that support for common language run-time environments.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Anil Khatri whose telephone number is 703-305-0282. The examiner can normally be reached on M-F 8:30-5:00 PM.

The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
